

Global Compact UAE

Hosted by the World Green Economy Organization

Overview

Global Compact Network UAE is hosted by the World Green Economy Organization. To achieve the ambitious and necessary goals set out in the 2030 Agenda for Sustainable Development, the UN Global Compact has developed a portfolio of Action Platforms to advance responsible business activities and fill emerging gaps in meeting the Global Goals. Rooted in the Ten Principles of the UN Global Compact, each Action Platform will convene business, Global Compact Local Networks, leading experts, civil society, governments and UN partners to solve complex and interconnected issues, explore new market opportunities and innovate around the Global Goals.

A call to companies to align strategies and operations with universal principles on human rights, labour, environment and anti-corruption, and take actions that advance many societal goals.
