Ideanco. The Idea Innovator Company

About Ideanco.

Founded in 1999, ideanco (Idea and Company) is a management consulting firm that prides itself in being an early adopter of crowdsourcing, a major innovation key differentiator. Ideanco – a name born out of the fusion of ‘idea’ and ‘company’ – has used this business model as a means of generating better ideas, better creative work, and ultimately high-performance output for our clients.
